

Triathlon Report

Triathlon 2014 was conducted on 22nd March 2014. Our Swimming coach Dr. P M Reddy, could not make it to the event due to other engagements and organizing the event in his absence was a real challenge. Notification for the event was sent well in advance to all the residents of the campus and posters and flexes were put up at various places. Owing to the prior publicity, the number of registrations received were very encouraging. We received a total of 45 and 20 registrations for the individual and team events respectively. Of the 45 individuals registered 19 actually participated whereas in the team event 16 teams participated. Most of the participants who did not make it to the event were from the student community of Institute. A possible reason can be the involvement of students in PAF, which was also going to be held on the same day. Overall, the response was better than the previous year.

The Results of the event are tabulated below:

Individual Event:
